YOUNG WRITERS!

Some noted authors are including younger authors in their creative work.

Lee Child is working with his younger brother Andrew Grant, writing under the name Andrew Child.

Their latest book *The Secret* features Jack Reacher still working as an army cop. Great story!

Nelson DeMille is working with his son Alex, with their most recent book called *Blood Lines*.

Some may recall that I was very critical of *The Maze*. This latest title is a much better story. Maybe the influence of Alex is positive for the father.
